RESPONSE to AMENDMENT

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 26 June 2008 has been entered.

Claims 1 and 3 have been amended, claims 2, 8 and 16 have been canceled and claims 23-25 have been added in the amendment filed 26 June 2008. Claims 1, 3-7, 8-15 and 17-25 are currently pending. Claims 17-20 stand withdrawn from further consideration pursuant

Election/Restrictions

Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claim 17, directed to the process of making or using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104. Claims 18-20, directed to the invention(s) of a method of treating a condition induced by a vascular lesion and a method of inhibiting plasmin, inducing neoangiogenesis and/or inhibiting matrix degradation, require all the limitations of an allowable product claim, and have NOT been rejoined.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement between groups I and II as set forth in the Office action mailed on 28 September 2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joyce von Natzmer on September 18, 2008.

The application has been amended as follows:

In the claims:

Please cancel claims 18-20 without prejudice.

In claim 23, please delete "replace" in line 3 and insert "replaced".

Reason for Allowance

The following is an examiner's statement of reasons for allowance: Applicant's arguments regarding the criticality of the modification of position 111 of the VEGF molecule has been persuasive. Claims 1, 3-7, 9-15, 17 and 21-25 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christine J. Saoud whose telephone number is 571-272-0891. The examiner can normally be reached on Monday-Friday, 6AM-2PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Manjunath Rao can be reached on 571-272-0939. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
